Prequalification for Construction of the Water Treatment Plant in Mykolaiv

ABSTRACT

The objective of the project is to design and build a new Mykolaiv WTP ((Filtration Station) so that that the territorial administrative unit of Mykolaiv Municipality achieves compliance with the quality of water intended for human consumption according to the Ukrainian Standard DSanPiN 2.2.4-171-10, and the EU Drinking Water Directive 2020/2184

PROJECT COMPONENTS

Procurement includes all elements and aspects to ensure the proper implementation of the project:

1. Project design documentation of a fully functional WTP
2. Building of the first part of the designed WTP, associated structures and facilities
3. Related services (i.e. Drafting progress reports, maintaining, compiling and submitting all information required for compliance with Health & Safety Regulations, obtaining necessary permissions, permits, attending works inspections of equipment and etc.)
