UKRAINE RECOVERY III FL

ABSTRACT

The Project aims to assist Ukrainian communities in responding to the damages caused by Russia's invasion through rehabilitation of critical social and urban infrastructure in the areas affected or destroyed by the war, construction of critical social infrastructure in areas under heavy pressure on social services and other infrastructure due to the influx of Internally Displaced Persons (IDPs).

PROJECT COMPONENTS & TASKS

Component 1: Emergency repairs for critical, urban and social infrastructure

Component 2: Small and medium-scale investment subprojects:

- construction of social housing for IDPs
- rehabilitation of schools, health facilities and social centers
- reestablishment and expansion of water, wastewater infrastructure
- rehabilitation/recovery of local and regional critical access roads and bridges
