RLF – Ukrhydroenergo Emergency HPP Restoration

ABSTRACT

The Project is aimed at maintaining stable and secure functioning of the Ukraine's energy system during the war environment by providing support to the PJSC "Ukrhydroenergo" (UHE) in order to replace the damaged or highly amortized critical equipment for the Dnipro and Seredniodnipro hydro power plants (HPP). UHE, a 100% state owned enterprise, is Ukraine's main hydropower generation company.

This will allow to increase operational efficiency of HPP, hydro powered electricity generation capacities and energy production volumes.

PROJECT COMPONENTS & TASKS COMPONENT 1 (€ 150 M)

Supply of critical equipment for the Dnipro and Seredniodnipro hydro power plants

- Replacement of 4 hydropower generation units at the Dnipro HPP, which were worn out due to extensive exploitation since 2003, and damaged by missile attacks
- Replacement of 2 gantry cranes used on the Seredniodnipro HPP" (Deadline: 10.02.2026)
