RLF - Ukrhydroenergo Emergency HPP Restoration

ABSTRACT

The Project is aimed at maintaining stable and secure functioning of the Ukraine's energy system during the war environment by providing support to the PJSC "Ukrhydroenergo" (UHE) in order to replace the damaged or highly amortized critical equipment for the Dnipro and Seredniodnipro hydro power plants (HPP). UHE, a 100% state owned enterprise, is Ukraine's main hydropower generation company.

This will allow to increase operational efficiency of HPP, hydro powered electricity generation capacities and energy production volumes.
