# RLF - Ukrnafta Emergency Distributed Generation Support

## ABSTRACT

The Project aims at supply and installation of distributed power generation capacity to support "PJSC Ukrnafta" in addressing the electricity deficit and ensuring uninterrupted energy supply to the population and businesses.

## PROJECT COMPONENTS

*Component 1: construction of electricity and heat generation facilities*

*Component 2: supply and installation of low-capacity gas-fuelled generation units.*

## PROCUREMENT INFORMATION

- [Project summary](#)
- [Procurement Guide](#)
- [Procurement notice - Supply of gas engine power and cogeneration plants](#)
- [Procurement notice - Supply of containerised gas engine power plants](#)

## ACTIVE PROCUREMENT NOTICES

*1. Supply of containerised gas engine power plants (approx.56MW total electric output), main auxiliary equipment and related services(deadline - 27.01.2025):*

- Containerized gas engine power plant (with the individual and total electric output power to be determined by the manufacturer according to the required peak actual load per site) for Sumy, Chernihiv, Ivano-Frankivsk , Lviv, Poltava regions
- Spare Parts and Tools
- Installation and commissioning supervision
- Training of the Purchaser's personnel

*2. Supply of gas engine power and cogeneration plants for 3 sites (approx.70MW total electric output power), main auxiliary equipment and related services (Deadline - 27.01.2025):*

- Gas engine power plant with the electric output power of the plant of not less than 28.2 MW and the individual electric output power per engine of not less than 9.4 MW (Lviv Region)
- Gas engine cogeneration plant with the electric output power of the plant of not less than 18.8 MW and the individual electric output power per engine of not less than 9.4 MW (Poltava, Cherkasy region)
- Spare parts, consumables, equipment and tools for maintenance and repair
- Installation and commissioning supervision
- Training of the Purchaser's personnel
