SUPPLY OF OFF-GRID SOLAR POWER STATIONS FOR PUBLIC SERVICES

ABSTRACT

The Project is aimed to deliver immediate help for electricity needs required to maintain functionality of municipal services in Ukraine during blackouts, by supplying renewable backup electric energy sources to pre-selected pilot public facilities in Kyiv and Kyiv Oblast, including:

- Two public educational institutions
- A wastewater pumping station

PROJECT COMPONENTS

Component 1: supply of transportable off-grid solar power stations

Component 2: supervision of power station installation and connection, provision of operation and maintenance manuals in Ukrainian

Component 3: training of client's personnel for power station operation and maintenance

PROCUREMENT INFORMATION

- Expected procurement: Q4 of 2024
- [General Procurement Notice](#)
- [Nefco Procurement Policy and Procedures](#)

Specific procurement notices for contracts subject to open competitive bidding will be announced as they become available.

Tendering will be opened to firms from any country
