Restoration Project of Winterization and Energy Resources

ABSTRACT

The development objective of the Project is to restore essential energy services by financing emergency repairs to the power transmission and heating infrastructure. It would finance procurement of mobile equipment for the provision of emergency electricity and heating services, and other energy components to restore critical energy services including transformers, switchgears, and repair parts.

The beneficiary is PJSC "Ukrenergo".

PROJECT COMPONENTS

Component 1 (\$ 48.825 M) Emergency equipment for the electricity transmission infrastructure

This component includes procuring, transporting to the sites within Ukraine, and delivering substation equipment for Private Joint Stock Company "National Power Company "Ukrenergo" (locations not specified):

- Autotransformers, transformers
- Instrument transformers
- Reactors
- Circuit breakers
- Disconnectors, surge arresters, relay protection devices and substation automation system equipment
- Specialized machinery and vehicles to assist in the restoring the electricity supply for the national transmission network

Component 2 (\$ 97.65 M) Emergency equipment for the heating services

This component includes procuring, transporting to the sites within Ukraine, and delivering essential equipment and materials for District Heating Companies

(potential cities covered under the component are Kharkiv, Mykolaiv, smaller cities in Chernihiv region, and Sumy, among others) for heating services:

- Mobile and stationary heat-only boilers
- Mobile mini co-generation units
- Pipes, fittings, valves
- Pumping sets and pumps
- Essential parts to repair district heating and gas networks
- Equipment for liquid fuel depot repairs
- Equipment to provide alternative heating options such as electric heating and biomass-based heating

Component 3 (\$ 6.653 M) Project Management and Monitoring

This component includes support for Project implementation and management.

- Consulting services for procurement
- Financial management
- Environmental and social risk management and supervision
- Coordination, monitoring and evaluation
- Audit and reporting
- Training of staff

PROCUREMENT INFORMATION

The project involves the procurement of materials and equipment for the general needs of the PJSC "Ukrenergo" and District Heating Companies, without specifying specific sites and locations. The end beneficiaries may be Kharkivoblenergo, Zaporizhiaoblenergo, Mykolaivoblenergo, Khmelnytskoblenergo, and Cherkasyoblenergo, among others.

Restoration Project of Winterization and Energy Resources

Procurement is open to all eligible firms and individuals.

Expected procurement in August-September 2024:

- Modular/container type cogeneration units
- Modular/container type heat-only boilers (HOBs)
- Pumps/pumping sets and frequency converters
- Generators (40kW and 60 kW)
- Pipes, valves and fittings

Specific procurement notices will be announced, as they become available, on:
