

## Renewable Energy Zone - Powered by IFAT

### New Feature: Renewable energies meet water, waste, environmental tech and food & drink technology

November 2-4, 2021 • Johannesburg, South Africa • Gallagher Convention Centre, Midrand

IFAT Africa, the leading trade fair for water, sewage, environmental technologies, refuse and recycling in Southern Africa, will host an all-new Renewable Energy Zone - Powered by IFAT in 2021!

Featuring solar, wind, hydropower, biomass and biowaste solutions and services, **Renewable Energy Zone - Powered by IFAT** will tap into cross-sectoral synergies and opportunities, giving exhibitors access to over 8,000 pan-African decision makers with a keen interest in sustainable business opportunities.

The new feature will add value across IFAT Africa and its two co-located shows: food & drink technology (fdt) Africa and analytica Lab Africa.

#### Showcasing solutions & innovations for the Renewable Energy Sector!

Solar Power

Wind Power

Biomass

Biogas

Hydro Power

Over 8000 attendees

3 days of business connections

Inspiring Forums

Captive audience
